

EQUIPMENT

- We as referees need to be consistent and enforce the rules on equipment
- Shinguards are a constant problem that **MUST** be enforced every time! Shinguards must be age appropriate and offer adequate coverage. They must be no higher than 2 inches above the ankle. Every referee needs to take the responsibility to ensure player safety when it comes to shinguards. If they aren't appropriate they **WILL NOT** play!
- Jewelry includes earrings, necklaces, bracelets and hair adornments
- Again, it is the coaches' responsibility to be sure their players are properly equipped so we don't have to handle it during the game.
