

The things I've seen

Fall 2007

Things I've seen

NEED IMPROVEMENT

- Not moving into the field enough
- Walking too much
- Watching the ball too much
- Too slow getting to an injured player
- Not following the rules
 - Use USSF for those games, and National Federation for HS and MS, and NCAA for college games. Know the difference and NEVER put one set above another.
- More concerned with spot of foul than direction
- Subbing off the bench
- Letting play pass you towards your goal

Things I've seen

IMPROVED THIS SEASON

- Movement to keeper on challenges
- Subs
- Calling more fouls, not letting things go.
- Positioning
- Persistent Infringement

Things I've seen

Coaches concerns

- Tackles from behind
- Pointing in wrong direction and causing confusion
- Hard fouls not called or carded
- Missed fouls
- Referees late
- Safety
- Keeper protection
- Not knowing what the referee is doing

Things to work on next season

- Advantage
- Communication
 - Before, during and after game
- Dangerous play: primarily player leaving feet to jump at ball on ground.
- Sell your calls
